PRICES: Services performed by WHA are based on one of two conditions, Time and Materials or Fixed Price. In some situations, a combination of these conditions is used.

- a. **TIME AND MATERIALS:** Services performed on a Time and Materials basis are charged according to the amount of time and materials that are actually consumed. A Time and Materials basis is typically used on projects involving development and experimental services. Due to the nature of a Time and Materials basis, there is no guarantee that the Services costs will not exceed the estimated costs.
- b. **FIXED PRICE:** Services are performed according to defined objectives and costs. Fixed price services place the burden of uncertainty with WHA. An exception to the fixed price costs is when the scope of the services is either increased or decreased by mutual assent relative to the original Agreement.
